PROFESSIONAL SUMMARY

Final-semester BS Computer Science student with a strong interest in software engineering and web development. Experienced in building responsive web applications using React.js, JavaScript and MongoDB through academic, internship, and personal projects. Skilled in problem-solving, teamwork, and learning new technologies. Currently seeking internship, junior developer, and entry-level software engineering opportunities.

EXPERIENCE

AIESEC

Apr 2026 – Present

Campus Ambassador (Part-time | Flexible Engagement)

- Represented AIESEC on campus and engaged with 50+ students to promote leadership and exchange programs.
- Contributed to event promotions that increased student participation and campus awareness.
- Collaborated with team members to execute campaigns and outreach activities effectively.

MLSA SZABIST Core Team

Feb 2026 – Present

Technical Coordinator (Part-time | Flexible Engagement)

- Supported website development and handled technical tasks for multiple MLSA events and initiatives.
- Improved website functionality to support student activities and events.
- Collaborated with team to troubleshoot technical issues and ensure smooth execution of events.

Fidsor Private Limited, Islamabad

Aug 2025 – Sep 2025

Front-End Developer (Internship | On-site)

- Developed responsive web applications using React.js, JavaScript, HTML, and CSS.
- Collaborated with a development team to design and build responsive web application interfaces.
- Improved UI/UX, debugged code, and implemented new features based on client requirements.
- Worked in an agile environment, followed project deadlines, and contributed to team-based development.

PROJECTS

MyAI Chat — AI Chat Interface

- Built a fully functional AI chat application inspired by ChatGPT using React.js and Groq API (Llama 3.3).
- Implemented real-time streaming responses, markdown rendering, voice input/output using Web Speech API.
- Added multi-conversation management with localStorage persistence, dark/light mode, and multiple AI models.
- Integrated image/PDF upload handling, chat export, keyboard shortcuts, and character counter.
- Tech Stack: React.js, Vite, Groq API, Vanilla CSS, localStorage, Git, Vercel.

MLSA SZABIST Core Team Website (Redesign)

- Redesigned and modernized the official MLSA SZABIST Core Team website with a clean and responsive UI.
- Migrated the project from vanilla JavaScript to React.js for better scalability and component-based architecture.
- Improved user experience with modern UI/UX principles and reusable React components.
- Collaborated with the MLSA Core Team to align design improvements with organizational goals.

Cloud-Integrated Secure IoT Gateway Simulator – In Progress (FYP)

- Developing a full-stack IoT gateway monitoring platform using React.js, Node.js, and Express.js.
- Implemented secure authentication and role-based access control using JWT and bcrypt.
- Designed a real-time traffic monitoring dashboard with anomaly detection and alert system.
- Built gateway and device management modules with secure/insecure communication visualization.

- Integrated PostgreSQL database with structured schema for users, gateways, devices, logs, and alerts.
- Applied RESTful API architecture and modular clean coding practices.

Stack Blogging Platform

- Built a blogging platform where users can create, edit, and delete posts.
- Implemented Markdown support, image upload functionality, and rich text editor integration (Quill.js).
- Tech Stack: React.js, Node.js, MongoDB.

Task Management Tool

- Built a full-stack task management application using Next.js, Node.js, Express, and MongoDB Atlas.
- Implemented JWT-based authentication with protected routes and RESTful CRUD APIs.
- Integrated secure frontend-backend communication and deployed backend on Render and frontend on Vercel.
- Followed professional practices including environment variables and separate repositories.

EDUCATION

Shaheed Zulfiqar Ali Bhutto University, Islamabad
BS Computer Science (Final Semester)

- Actively participated in various university activities and technical events.

Feb 2023 – Feb 2027
Islamabad, Pakistan

GBDC, Bhan Saeedabad
Higher Secondary Certificate (HSC), Grade A1

March 2020 – September 2022
Bhan Saeedabad, Pakistan

CERTIFICATIONS & COURSES

Introduction to AI — Coursera ([Certificate](#))

Master AI for Web App Development — Simplilearn ([Certificate](#))

Artificial Intelligence & Data Science Technical Training — SZABIST University, Islamabad

FORGE Certificate — AIESEC in Islamabad

- Successfully participated in the FORGE program organized by AIESEC in Islamabad.
- Contributed to activities aligned with United Nations Sustainable Development Goals (SDGs).
- Developed leadership, teamwork, and problem-solving skills through structured youth engagement sessions.

SKILLS

Languages: JavaScript (React.js/Node.js), HTML/CSS, SQL (PostgreSQL)

Frameworks/Stacks: MERN Stack, REST APIs, Groq AI API, Web Speech API

Cloud & DevOps: AWS, Render, Vercel, Secure Deployment

Tools & Other: Git & GitHub, Figma, OOP, DSA, Troubleshooting

LANGUAGES

English — Advanced Urdu — Fluent Sindhi — Fluent French — Basic
